MIRROR RECTANGULAR SIDE STRIPS

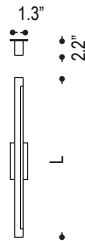

LED Mirror Side Light

IP44

Designed with a polished stainless steel finish, the slim rectangular profile creates a clean, sophisticated appearance while providing bright, even illumination ideal for bathrooms, vanities, dressing areas, and hospitality applications. Engineered for both style and performance, each fixture features an IP44 rating for protection against splashing water and is powered by an energy-efficient 24V LED system. Choose from three color temperatures to create the desired atmosphere, from the 2700K, to 3000K, or the crisp, contemporary appearance of 4000K. A remote LED driver is included for a streamlined installation.
