LEDLINE 201

LED Line 201 **IP20**

Low-voltage step lighting system designed for safe and effective illumination in cinemas, theaters, auditoriums, and other public spaces. Operating at 24V DC, LED Line 201 features a black anodized aluminum profile with an anti-slip polymer surface and is available with linear, dot, or optional riser illumination. ADA-compliant configurations provide flexibility for a wide range of architectural applications.

- Step lighting profiles
- Lineal light, dots light and riser illumination types
- 24V types
- ADA compliant
- Black anodized profile with anti-slip polymer
- Ready made profiles or in components
- Accessories: blind profiles, emergency lighting power supply and aisle number plate
- Applications: Cinemas, theatres, auditoriums, etc.
