	PLL57C	197W	21660lm			C Consult	A		277V input

NOTES	Representative luminary series with clear geometric forms - circular or square - and various sizes of light fields. The memorable design combined with a homogenous light field produces sophisticated and architectural lighting design. The various sizes of luminaires can be combined flexibly as ceiling and pendant luminaires or mounted in bed excavations. To complete the PL series circular wall luminaires are available.	* CRI90 (subject to availability)	WEB LINKS: Product Page
