Dark Light Mini Pendant **IP20**

A compact cylinder pendant designed for clean, focused lighting with a discreet architectural look. Its Dark Light design helps reduce glare, while the replaceable GU10 lamp up to 10W provides flexibility when selecting the desired light source. Crafted from aluminum with a slim 2.68" diameter × 6.50" body, it works particularly well above counters, kitchen islands, bars, and hospitality spaces where multiple pendants can be arranged together.

120V
Material: Aluminium
